

The visiting tours.

The different visiting groups gets this sheet of questions and reflections to work on during the visit. The group must prepare input for the plenary session in the afternoon (Wednesday).

The panel and speakers from Tuesday afternoon will form a “discussion panel” for the reflections coming from the different “visiting groups”.

The “long distance transport groups” can prepare their work in the return bus.

The “short distance transport groups” can access group rooms at the hotel upon return.

Larvik prison (young offenders) and "Sammen for livet"

Søndre Vestfold prison, Larvik department, is situated near the city of Larvik. The prison is a high level of security prison, receiving young inmates of 18-25 years. The prison capacity is 16 male prisoners housing inmates with sentences of up to 10 years. The prison has a school department, and there is an assistant occupational therapist who supports those who does not attend school.

"Together for Life" is working to get people into regular jobs. "We find the right job for a motivated person, not the person for a given job". The process starts before the release, and they follow up for 3 years, - not just get them a job and let go.

Themes for reflection:

The school department

What did you see and experience?

Did you get an understanding of why it was like this?

Dilemmas?

Something you would suggest to change?

Something you did not understand?

The relation between the school department and the workshops

What did you see and experience?

Did you get an understanding of why it was like that?

Dilemmas?

Something you would suggest to change?

Something you did not understand?

The "follow up project"

What did you see and experience?

Did you get an understanding of why it was like that?

Dilemmas?

Something you would suggest to change?

Something you did not understand?

Can the group present three reflections or questions after their visit to share with the panel and the conference?
